# How to Buy a Domain Name from Name Mesh

If you want to have a website, you will need to [buy a domain name](#).

A website builder, domain name and hosting are the 3 main functional components that contribute to your overall [affiliate marketing website design](#). Although there are many companies you can purchase domain names from, this guide will explain how to buy a domain name from Name Mesh.

But before you buy, you should know that the first step is to research a good name.

You want to find the right name for your business. The permanent name for your website that you can live with, forever. You want to avoid making mistakes that could cost you more money than you need to spend.

*Recommended read: Before you make a purchase, learn how to do proper research for a good domain name with the [how to buy a website domain name guide](#). This step by step guide will teach you how the website domain buying process works, what you need to know before you decide on that permanent name for your website and what costly mistakes to avoid.*

Once you have done your research, the second step is to buy the domain name.

You need to know what is available for you to buy because , you will need to buy it from a specific company referred to as a domain name registrar. The third step is to buy website hosting which can be also be purchased from most domain name registrars.

## Name Mesh is Not a Domain Registrar

You should understand that Name Mesh is just a domain name generator. It is not an actual domain name registrar. Name Mesh just gives you ideas. They don't actually manage your website domains for you.

So, you use Name Mesh for your research and discovery. But you do not actually buy your the domain name from [namemesh.com](#). You buy your website domain from one of the 7 domain registrars that Name Mesh is connected to.

## How to Buy a Domain Name from Name Mesh

You will choose the registrar to purchase from and then be taken to their website to complete your purchase.

So with this in mind...

# How to Buy a Domain Name from Name Mesh

## Here is How to Buy a Domain Name from Name Mesh

### 1. Go to Name Mesh website

In your web browser window, go to [Namemesh.com](https://namemesh.com)

### 2. Search for Name

Enter in the domain name or keywords you want into the search box, e.g. blenders life

💡 TIP - Works best with 2-3 domain keywords separated by space, e.g. "name mesh"

Search Suggestions : [blenders\\* life](#) , [blenders \\*life](#) , [blenders - life](#)

#### Tips:

- You can enter in words separated by a space
- You do not need to enter the extension.  
Namemesh will do it for you based on what is available.

### 3. Click Generate

Click the blue **Generate** button. This will confirm if your domain name is available and provide other name alternatives within the Name Mesh categories.

### 4. Check the results

Your .com domain name will show up if it is available.
